Social Security Number

According to state law, to obtain or renew a license you must furnish a valid social security number (SSN). Effective September 1, 2026, a statement attesting that you do not have an SSN will not be acceptable in lieu of a valid SSN. This includes applications for initial license by examination and endorsement and renewal or restoration of an existing license.

This change reflects recent guidance from the Texas Office of the Attorney General. If you do not have a valid SSN, you can still complete and submit the **PT License Application** form found online at https://ptot.texas.gov/forms/ or submit a renewal or restoration application for an existing license after September 1, 2026. Not having a valid SSN will only affect the final issuance, renewal, or restoration of a TX license once all the licensure requirements have been satisfied.

If you have an SSN but previously submitted an application with an invalid SSN, complete the information below and email to exam@ptot.texas.gov. Include your application number or license number, if you already have a license, so we can accurately add this information to your file.
